## Description

Facebook advertising is one of the most effective ways to grow your business online. Facebook is the leading social media site. It has well over 2 billion active users, each of whom spends on average several hours per week on their platform. It's also one of the most cost-effective forms of advertising in the modern era. The CPM (cost per thousand impressions) on Facebook ranges from around £4 to £8. In other words, for a cost of less than £8 you can reach over 1,000 people. Facebook advertising offers businesses of all sizes the opportunity to reach their desired audience and sell directly to them. Businesses that leverage Facebook ads successfully can significantly grow in a predictable, measurable way. This makes Facebook advertising fundamental to the success of business owners who wish to grow quickly.
