## Description

Travel Programme Health Check Did you know that inefficiencies within corporate travel programmes can account for up to 20% of the total spend? At QA Travel Isle of Man, our in-house analytics team have a tried and tested methodology to uncover available cost savings within our clients travel programmes. We have developed QA Analytix™, a process consisting of four-steps dedicated to finding potential savings in travel programmes: 1. Sourcing & Procurement 2. Travel Policy Health Check 3. Travel Policy Compliance 4. Trip Planning & Booking QA Analytix™ drills deep into travel programme data and has consistently proven to uncover savings of between 10 to 20% on existing travel programmes and as much as 38% in particular cases. To learn more about our savings solutions contact with one of our specialists: Isle of Man United Kingdom Daniel.J@qatravel.com Alfredo.C@qatravel.com Kevin.C@qatravel.com Or call us at: +44 (0) 1624 631 600
