

Blacklock Jewellers

86-90 Paul St, Shoreditch
London, Greater London EC2A 4NE
United Kingdom

Phone: 2073154284

Our story is a family legacy built over generations. From the inventive genius of Robert Hodgson Blacklock, who helped introduce the wristwatch, to Ralph Blacklock's breakthroughs in gemstone settings, we've always been about pushing boundaries. We take pride in our resilience and forward-thinking mindset, adapting to new eras without compromising our values. Today, we work closely with private clients, channeling our creativity into fine jewellery that resonates deeply and lasts for generations.
